Program Overview

The purpose of the Certified Production Technician (CPT_{AE}) program is to recognize through certification individuals who demonstrate mastery of the core competencies of manufacturing production at the front-line (entry-level through front-line supervisor) through successful completion of the certification assessments. The goal of the CPT_{AE} certification program is to raise the level of performance of production workers both to assist the individuals in finding higher-wage jobs and to help employers ensure their workforce increases the company's productivity and competitiveness.

The CPT_{AE} program consists of five individual certificate modules: Safety; Quality Practices & Measurement; Manufacturing Processes & Production; Maintenance Awareness and Green Production.

What is MSSC ?

The Manufacturing Skill Standards Council (MSSC), a 501(c)3 non-profit, is an industry-led, training, assessment and certification system focused on the core skills and knowledge needed by the nation's front-line production and material handling workers. The nationwide MSSC System, based upon industry-defined and federally-endorsed standards, offers both entry-level and incumbent workers the opportunity to demonstrate that they have acquired the skills increasingly needed in the technology-intensive jobs of the 21st century.

Participant Benefits

If you are interested in a career in the manufacturing industry, you will definitely benefit from this training and greatly increase your opportunities for employment/advancement in the manufacturing industry.

Individuals who are currently working in the manufacturing industry will be provided with industry-recognized certification; adding value to their skillsets and employment.

Training consists of five (5) modules.

- Green Production
- Safety
- Quality Practices & Measurements
- Manufacturing Processes & Production
- Maintenance Awareness

Instruction is provided by a Certified MSSC Trainer. Each class is set up as a combination lecture/lab and consists of classroom instruction and demonstration.

Employer Benefits

- Decreases Recruitment Costs
- Decreases Training Costs
- Motivates Employees
- Increases Production & Innovation
