Log into Blackboard and click on a course shell, go to Packages and Utilities under the Control Panel, Import Package/View Logs, Import Package, select a Package and browse my computer for the .zip file you downloaded at the link above. Under Select Course Materials, choose the following: Content Areas, Announcements, Calendar, Contacts, Discussion Board (include only the forums, with no starter posts), and Settings (uncheck Banner, you will upload your own using the banner file). Click Submit.

Ensure Announcements is set as your landing page (Customization, Teaching Style, Select Course Entry Point). You will need to delete the following links if they remain in the menu: Tools, Syllabus, Help, and Homepage. Students should see the format below when they click on their course from their BB homepage.

The screenshot displays a Blackboard course shell for 'OST 235 Business Communication Technology' at Somerset Community College. The instructor is Dr. DeAnna Proctor. The page features a navigation menu on the left with options like 'Announcements', 'Start Here', 'Course Syllabus', and 'Control Panel'. The main content area shows a 'Welcome' announcement posted on Wednesday, October 26, 2016, at 12:12:58 PM EDT. The announcement text includes a placeholder for the course name and a request for students to review the syllabus. The page also includes a 'Create Announcement' section and a top navigation bar with links such as 'eCourses', 'eCommunity', and 'System Admin'.

Course Content should be organized by chapters, modules, weeks, etc. All assignments for that chapter, module, week, etc. should be located in the link for that particular chapter, module, week, etc. **If you do not use an item, make sure you delete it from that section or menu area.** Make sure to change all titles/headings to correspond to that chapter, module, week, etc.

Copy the section template for Chapter, Module, Week#: Title and Discussion Board Thread, as needed, for the remainder of the course content.

Menu links can be added that direct students to publisher content.

Items highlighted throughout the template should be replaced with specific information for your course. Remove the highlight or delete the highlighted text before you hit submit to change text.

Items underlined are links to additional content.

Ensure all links are working correctly, due dates are updated, date restrictions are updated if used, points possible are correct and accurately reflected in Grade Center before making course available to students.

Update the .ppt Banner file with your course information. Steps for making a course banner:

- 1) Download PowerPoint (PPT) "Blackboard banner.ppt" to your computer
- 2) Open single slide in PowerPoint and type in your course information and name
- 3) Under "file," pull down to "save as" , browse where you want to save it, name file, and "save as type" is .jpeg.
- 4) Give file a name you can remember and save to your computer
- 5) Upload JPEG file to your course through "Control Panel/Customization/Teaching Style/Select Banner Change banner under Customization, Teaching Style, Select Banner.

Blackboard will not allow you to use a .ppt file for a banner, you must save the file as a .jpeg.
